

# ACE-ing Your Implant Cases

October 21, 2021 5:30 - 8:00 PM

## Course Description

Join us for dinner & drinks on Thursday, October 21st to learn how ArgenIS Implant Solutions and ACE Surgical Supply can become your winning combination.

In this 2-hour CE program, you will learn how the restoration of ACE Surgical Implants with custom-milled abutments from the Argen Corporation provide precise compatibility, functionality and bio-compatibility. Using either digital or analog workflows, these products can provide you with a cost effective way to treat more patients. Both companies' products are FDA cleared and have extensive warranties for your peace of mind. Additionally, iTero intraoral scanning will be demonstrated.

## Course Objectives

At the completion of the program, attendees will understand:

- Solutions for single or multi tooth restorations using ACE implants and Argen custom-milled abutments
- Why full arch impressions and a good bite are important for the best results
- Advantages of using custom-milled abutments
- How to prepare for the impression and seat appointments

- Argen's engineering and state-of-the-art manufacturing produce precise, industry-leading tolerances between the implant and the abutment
- *ArgenIS* abutments are available in Titanium, Gold-Shaded Titanium, Zirconia Hybrid (metal interface)
- *ArgenIS* abutments are backed by Argen's Custom Abutment Warranty

### The Octagon Implant System:

- Delivers a truly compatible, functional, and aesthetic dental implant solution
- Platform allows for a secure connection between the implant and prosthetic components
- From a single tooth to a full arch restoration, ACE Octagon bone level implants are easy to place and restore

### Exclusive offer!

As an exclusive incentive, each dentist attending will receive a voucher good for one free *ArgenIS* 3D intraoral scan body for the ACE Octagon bone level implant. You will have a choice from 2 sizes, 3.3 NC or 4/1/4.8 RC. Retail value \$39. Must be present to receive voucher. One offer per dentist.

## Presenters

**Steaffani Dall, the Argen Corporation**, brings 32 years of knowledge and experience in the dental field to her lectures and training seminars. Steaffani began her career as a dental assistant and dental hygienist and owned a consulting company working with private practices and implant companies. As Western Regional Manager for the Argen Corporation, she conducts advanced training on restorative and surgical procedures for universities and VA GPR programs as well as providing technical support to laboratories. Her most recent focus is on digital solutions such as guided surgery, intra-oral scanning, CAD/CAM restorations and digital workflows.

**Terry Rainbow, ACE Surgical Supply**, has worked in the dental field for almost 30 years, beginning in 1993 with Schick Technologies. Terry has always enjoyed working with the newest technologies and joined Biolase as a Senior Laser Specialist in 2000. In 2005, Terry transitioned to dental implants with Dentsply Sirona. He has served on the Exhibitor Advisory Board for the Southwest Dental Conference and is currently Territory Manager for Ace Surgical Supply where he works extensively with bone grafting materials and implants.

This activity has been planned and implemented in accordance with the standards of the Academy of General Dentistry Program Approval for Continuing Education (PACE) through the joint program provider approval of HELM DENTAL LABORATORY, THE ARGEN CORPORATION and ACE SURGICAL SUPPLY. HELM DENTAL LABORATORY is approved for awarding FAGD/MAGD credit. AGD ID# 400406.
